

KoskiPly Color

Thin birch plywood for multitude of applications

KoskiPly Color is cross-banded birch plywood, with dyed birch reconstituted veneers.

KoskiPly Color dyed veneers will create an unique surface, which reflects light and colour in an unparalleled way. Surface can be treated using wax, oil and lacquers which will create an extra nuance for the color.

KoskiPly Color is suitable for gift items, jewelry, interior design and for laser cut items

Standard sizes	Interior 1220 x 1220 mm Flex 1220 x 1220 mm
Packaging	Standard package 50pcs

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen thin plywood products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
